Mayville Municipal Airport (D56)

Associated City: Mayville

D56's Airport Economic Impacts

The impacts below present the sum of direct and multiplier impacts of all activity associated with D56. The table below offers a breakdown of the total impacts by direct, multiplier, total, and source of impact.

Jobs

12

Payroll

\$692,000

Value Added

\$881,000

Output

\$1.40 M

Source of Impact	Jobs		
	Direct	Multiplier	Total
Airport Management	0	<1	<1
Airport Tenants	6	2	8
Capital Expenditures	1	<1	1
GA Visitor Spending	2	1	3
CS Visitor Spending	N/A	N/A	N/A
Total Jobs Impacts	9	3	12

Source of Impact	Payroll		
	Direct	Multiplier	Total
Airport Management	\$0	\$2,000	\$2,000
Airport Tenants	\$385,000	\$109,000	\$495,000
Capital Expenditures	\$57,000	\$27,000	\$83,000
GA Visitor Spending	\$74,000	\$38,000	\$112,000
CS Visitor Spending	N/A	N/A	N/A
Total Payroll Impacts	\$516,000	\$176,000	\$692,000

Source of Impact	Value Added		
	Direct	Multiplier	Total
Airport Management	\$6,000	\$3,000	\$9,000
Airport Tenants	\$388,000	\$178,000	\$566,000
Capital Expenditures	\$84,000	\$46,000	\$130,000
GA Visitor Spending	\$115,000	\$61,000	\$175,000
CS Visitor Spending	N/A	N/A	N/A
Total Value Added Impacts	\$593,000	\$288,000	\$881,000

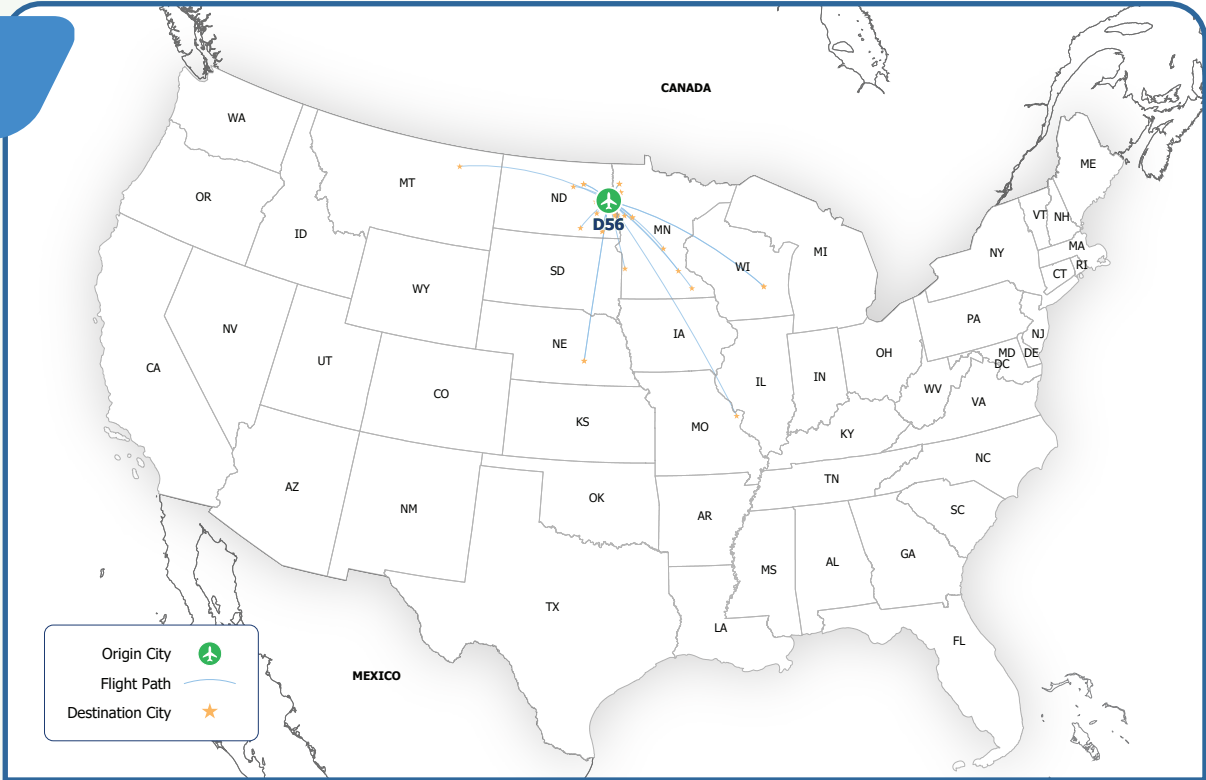

Source of Impact	Output		
	Direct	Multiplier	Total
Airport Management	\$8,000	\$6,000	\$14,000
Airport Tenants	\$522,000	\$315,000	\$837,000
Capital Expenditures	\$150,000	\$84,000	\$234,000
GA Visitor Spending	\$198,000	\$118,000	\$316,000
CS Visitor Spending	N/A	N/A	N/A
Total Output Impacts	\$879,000	\$522,000	\$1.40 M

Airport Flight Map

This Instrument Flight Rules (IFR) map shows annual flight activity data and helps to demonstrate the important role that D56 plays in providing time-saving connections for local and visiting businesses and residents. IFR Flights Completed as Filed between January 1, 2024, and December 31, 2024.

Airport Facts

The airport and the activities it supports generate approximately \$187,000 annually in federal, state, and local tax revenues.

An estimated 1,635 out-of-state visitors traveled through D56 in 2024 via general aviation aircraft.

Visitors using D56 spent approximately \$34,000 on lodging, \$58,000 on food and beverage, \$36,000 on local transportation, \$40,000 on retail, and \$32,000 on entertainment, supporting local businesses throughout the region.

D56 supports daily flight instruction, weekly recreational flying, and occasional corporate activity.

Over the past four years, more than \$600,000 has been invested in capital improvements at D56, averaging approximately \$150,000 annually from state, local, and private funding sources.

Study Methodology

Comprehensive data collection was essential to producing accurate economic impact estimates for calendar year 2024. Primary data sources, including airport staff, airport business tenants, and visitors, were used to estimate direct economic impacts. These data were gathered through onsite visits and a combination of in-person, telephone, and online surveys. Where needed, additional industry sources were consulted to supplement the primary data. A nationally recognized economic modeling platform, IMPLAN, was used to calculate multiplier effects. Economic impacts were estimated for airport management, airport tenants, capital investment activity, GA visitor spending, and commercial service visitor spending.

Economic Impact Levels

The economic impacts for North Dakota's airports are presented at three distinct levels (direct, multiplier, and total) to describe where in the economic cycle the impact is generated.

Airport Administration

Airport Tenants

Capital Investment

GA and Commercial Services Visitor Spending

Indirect

Portions of direct output used to purchase goods and services from businesses inside the study region

Multiplier Impacts

Induced

Income earned by workers from direct and supplier sales transactions that are then spent inside the study region

Total Impacts

There are four measures used to express the economic impact of North Dakota's airports: jobs, payroll, value added, and output.

Jobs

Total number of people employed. This includes both full-time and part-time because of aviation.

Payroll

Total employment compensation, including wages and benefits, of those employed

Value Added

The value of final goods and services produced locally because of economic activity, excluding the value of goods and services used to produce them

Output

Total expenditures associated with airport administration, capital projects, tenant sales of goods and services, as well as visitor spending in North Dakota's hospitality-related sectors

FAA ID: D56

About Mayville Municipal Airport

Located just one mile south of downtown Mayville, North Dakota, Mayville Municipal Airport (D56) serves as a vital link for general aviation in Traill County. With over 9,600 annual aircraft operations, it supports a wide range of operations. The airport's single asphalt runway accommodates a variety of small aircraft and agricultural operations. Owned and operated by the City of Mayville, the airport spans 34 acres and offers essential services such as aircraft tiedown parking and a rotating beacon. Though modest in scale, it plays a key role in supporting flight training activity from nearby Grand Forks International Airport and serves as a base for agricultural spraying operations. Each June, the airport hosts an annual Fly-In during the MayPort Summerfest, welcoming pilots and visitors for a day that combines aviation with community celebration. Mayville Municipal Airport is a quiet but dependable asset in North Dakota's aviation system—providing access, utility, and community value in a rural setting. Its proximity to major aviation hubs and consistent traffic make it a meaningful contributor to the state's air transportation network.

Runways

The most critical infrastructure of an airport is the runway system. Runway characteristics determine the types of activity the airport can support.

Type	Orientation	Dimensions	Surface	Approach
Primary Runway	18/36	3,300 ft x 60 ft	Asphalt	VIS / VIS
Secondary Runway	N/A	N/A	N/A	N/A
Tertiary Runway	N/A	N/A	N/A	N/A
Additional Runway	N/A	N/A	N/A	N/A

Aviation Activity Demand Forecasts

Aviation activity demand forecasts are included in the NDSASP to understand how aviation demand is expected to change over time. These forecasts help inform future infrastructure needs and long-term system planning decisions.

Activity Type	Base Year (2024)	Future Year (2044)	2024-2044 CAGR
Commercial Service Enplanements	N/A	N/A	N/A
Commercial Service Operations	N/A	N/A	N/A
General Aviation Operations	9,600	10,740	0.56%
Based Aircraft	8	8	0.00%

Note: CAGR = Compound Annual Growth Rate
